New C1200 AquaCombi RO P5

Bigger Better Best

This NEW AquaCombi C1200 has a rated capacity of 1200 litres per day – **ideal to feed 40 tray combi ovens.**

The system remains **compact measuring approximately 40L x 40H x 20D cm** which makes the size relative to the restricted space in commercial kitchens

The Aqualife RO technology in the C1200 continues with the security of a **five stage process system** including a 1 micron pre-filtration to protect the granular activated carbon.

A **24V power supply** operates the treatment system automatically.

The NEW C1200 has been chemically engineered specifically for the commercial kitchen environment.

The system includes:

- 24V power supply Pump
- Automatic flushing system
- 1200 gpd membrane
- Four filter cartridges
- All Australian manufactured compliant hardware
- USA filter housings
- USA 1200 gpd membrane
- 20 litre tank with other sizes available as an optional extra.
- The Aqualife® C1200 is a **low capital and maintenance cost.**

Furthermore, the AquaCombi C1200 is Australian designed and manufactured reverse osmosis system with outstanding after sales support.

This makes your choice an intelligent decision.

The C1200 HF-50HL Pump

*Revolutionary design, low energy consumption,
long durable performance.*
